

Make your own Kazoo!

Materials needed:

Small plastic comb

Wax paper

1. Tear off a piece of wax paper just big enough to be folded over the comb.
2. Fold the wax paper over the top of the comb, covering the comb on both sides.
3. Hold the comb against your mouth with your lips open and make a loud "HUMMMM" sound. You'll hear the kazoo as the wax paper vibrates against the comb.
